## Loss Control Consultant/Senior Loss Control Consultant

**Job Code :** 530  
**Division :** Underwriting  
**Location :** Home-based/Telecommute  
**Job Type :** Full Time  
**Career Level :** Experienced (Non-Manager)  
**Education :** Bachelor's Degree  
**Skill :** Underwriting -> Commercial Lines  
**Category :** Loss Control  
**Compensation :** From 49,863.68 To 88,817.52 USD Per Year

### Job Description :

**This position may be filled as a Loss Control Consultant or a Senior Loss Control Consultant, depending on the candidate's qualifications, and is a resident, work from home position, located within the assigned territory - Alabama.**

The Loss Control Consultant / Senior Loss Control Consultant conduct loss control surveys of prospective and written commercial lines accounts, within a designated geographic territory, to gain a thorough understanding of their operations.

### Job Requirements :

#### LOSS CONTROL CONSULTANT:

- Bachelor's degree, with a major in safety, science or engineering; continuing education through specialty courses such as Associate in Loss Control Management (ALCM) and Associate in Risk Management (ARM) and certifications such as ASP, CSP, CIH or OHST (additional related experience may substitute for education)
- 1 to 3 years in property/casualty loss control, conducting loss control surveys and performing some loss control consulting work on written accounts;

- Proficient level of technical and professional skills/knowledge of the loss control/safety area for all types of surveys for all commercial lines and programs;
- In-depth knowledge of operational practices for industrial, construction, institutional, commercial, educational and habitational occupancies;
- Good understanding of commercial insurance coverages;
- Good organizational and time management skills;
- Basic training and presentation skills;
- Good communication skills, both oral and written, to include the ability to develop and present information of varying degrees of complexity in an easily understood manner;
- Excellent customer service skills;
- Excellent analytical and problem-solving skills;
- Good PC skills, with an emphasis on Microsoft Office Suite;
- Must have a valid driver's license, an acceptable MVR and the ability to operate a motor vehicle;
- Must be able to travel, with over-night stays possible;
- Must have the ability to adhere to scheduled work hours

The **SENIOR LOSS CONTROL CONSULTANT** position requires all of the above with 4 to 6 years in property/casualty loss control, conducting loss control surveys and performing loss control consulting work on written accounts, with experience handling the larger and more complex accounts.

**Offer Relocation :** No

**Shift/Hours :** First Shift (Day)
